Khan Academy Support for all Grade Levels

The division of Mathematics encourages all students and teachers to utilize the Khan Academy website, <http://www.khanacademy.org> for instructional resources in mathematics. Student can also find a Khan Academy Tab on their Student Portal page.

Khan Academy is a not-for-profit organization with the goal of changing education for the better by providing a free world-class education to anyone anywhere.

Students can make use of their extensive video library, practice exercises, and assessments from any computer with access to the web.

*As a great summer review plan we suggest choosing the MATH: GET READY COURSES and choose the grade level the child will be entering next year.

For additional information, visit <http://www.khanacademy.org/about>.
