## **eLearning Toolbox Online Summer Resources**

Students and parents: We believe that it is important for students to have some fun this Summer and make time share and enjoy with family. But we want to make you aware of resources for study and support being provided during the summer.

Miami-Dade County Public Schools is offering free, digital programs for students in grades PreK-12 during the summer break to avoid the summer slide and to promote at-home learning using technology. We suggest that you take advantage of these resources as an opportunity for enrichment and support during the summer.

The interactive and engaging digital tools are available through the **Student Portal** and are meant to provide enrichment activities as well as opportunities for remediation and acceleration.

### **Students will have access to the following content:**

- *Digital Classroom* (i.e., mathematics, reading, science, and social sciences)
- *Digital Playground* (i.e., art, coding, languages, robotics, typing, etc.)

### **PreK-12 Students**

- Students will be able to access the appropriate digital resources based on their grade level during the 2019-2020 school year.

**eLearning Toolbox Online Summer Resources are accessed through the Student Portal**
